

INJ-255 Dodge RAM Mechanical featuring Gas & EcoDiesel Engines

In 2009-2017 Ram (Dodge) 1500

In this class we will look at the evolution of the 4th generation Ram pickup. Engine options changed during the production of this truck and we will cover operation and diagnostics for the Pentastar V6, 5.7 Hemi and the 3.0L Eco Diesel. One option on this truck is the Four Corner Air Suspension, this class will cover detailed operation, diagnostics and repair. As Electrical and Buss systems have been updated, we will cover the operational upgrades of these important changed systems. With all new systems that are detailed, we will look at common problems and repairs that you will encounter in your service center.
